EWMCE Partnership Highlight

## SNOW MELT STUDY Supports City of Edmonton "The Way We Green" Initiative

There are five engineered snow disposal sites in the City of Edmonton, currently operating under EWMCE's careful supervision. The City of Edmonton's Transportation Services and EWMCE are investigating potential environmental impacts in melt water, to improve treatment efficiency from detention ponds. ## EWMCE Launches ICI Waste Diversion

In June 2015, EWMCE's hardworking Education & Training Team officially launched its first offering of the *ICI Waste Diversion Systems* course.

Read more about the successful first run, and hear from Jared Fehr of Lakeland College, recipient of EWMCE's Sponsorship Program. [Click here...](#)

# SCC ACCREDITATION

*EWMCE has been working on an exciting new initiative: our accreditation by the Standards*

Water Reuse Systems  
(CSA Standard B128.3).

*Council of Canada. This will enable us to offer the service of testing and certifying the Performance of Non-Potable*

## Service Pamphlet

*Click on the images on the brochure to find out more!*
